*To whom it may concern:*

*Paul Koleske spent a weekend ministering to our congregation of 1000 families through his inspirational words and music. I was very impressed with his traditional spirituality which was expressed in contemporary and very personal terms. He was well received by the parishioners and I would highly recommend his ministry to your attention. He introduced himself by providing music before all Masses, and through some music at the Offertory and after the Communion hymn. He spoke very briefly after the post-Communion prayer. His presence was very prayerful, and he worked very well with our music ministry. He gave a 90 minute presentation on Sunday night which was a combination of his Spirit-full music and testimony. His music is very spiritual and provides a background from examining ones' own spiritual life. He is very easy to listen to and kept the congregations attention.*

*I believe that there is need for lay evangelical witnesses to our Catholic faith and would highly recommend contacting him for a presentation or a retreat. My prayers are for Paul Koleske and his ministry.*

*Sincerely in Christ,*
